

Tile-beating trowel

Floor trowel

Tile beater float with a base made of durable, pressed PVC with high density and high specific weight. The base of this tile-laying trowel has a longitudinal milling to ensure the escape of air during the beating action. This **trowel** model is designed **for tiling** to ensure adequate adhesion to floor or wall surfaces.

TECHNICAL SPECIFICATIONS

- pressed PVC base
- handle screwed to the base
- longitudinal milling at base for air escape
