

KDM 3000

Core drill

The KDM 3000 core drill has a compact high-performance design and a weight of only 6.8 kg, making it the lightest and most powerful in its category. The brushless motor has a high working efficiency and is extremely powerful; equipped with a 3-speed selector switch with oil bath lubrication, oil pump and heavy-duty overload clutch. Equipped with an intelligent overload LED installed for easy functioning.

ENDOWMENT:

- Art. 57105 - Engine plate
- Water hose kit
- Differential circuit breaker (PRCD)
- Service key set 41-32 mm
- Plastic case

TECHNICAL CHARACTERISTICS:

Power: 3000W

Voltage: 230- 50-60 Hz

Speed (1-2-3): 610-1320-2750 rpm

Recommended drilling diameter (sector speed 1-2-3): 252/ 132/ 76mm

Engine connection: 1-1/4 UNC

Weight: 6.8 kg
