

Flexi Kit

Grinding cup set for sanders

Flexi Kit is the **professional set for sanding** and surface finishing suitable for all materials, designed to deliver high performance and maximum versatility. The **3+1 kit** includes an **aluminum backing pad** and **3 Vacuum Brazed diamond grinding cups** (grits #30, #50, #70), ideal for quickly moving from coarse to fine with precision and without vibrations.

The grinding cups for sanders ensure **high material removal capacity**, making them perfect for worn surfaces and for the quick removal of resins or paints. **Vacuum technology** guarantees efficiency, speed and excellent dust evacuation, allowing **up to 50% more material removal** and longer lifespan compared to traditional technology.

The **colors** of the **grinding cups** allow immediate identification:

- **Yellow:** fine grit #70 - suitable for porcelain stoneware, natural stones, granite and metallic materials
- **Orange:** medium grit #50 - suitable for bricks, granite, reinforced concrete and steel
- **Black:** coarse grit #30 - suitable for reinforced concrete, epoxy resin, asphalt and wood

The Flexi Kit grinding cups set is a complete solution for fast, clean and professional processing.
