

Rule for walls

Rule for walls

Wall rule with steel tube with galvanised finish for maximum corrosion resistance. Galvanised steel stops and high-strength springs ensure a high number of uses without the risk of jamming.

The wall rule is equipped with **practical wire sliders with rings** and a closing cap that prevents debris from entering the tool.

TECHNICAL SPECIFICATIONS

- anti-corrosion galvanised finish
- galvanised steel retainers and high-strength springs
- wire sliders with rings
- set screw with extremely strong wingnut
- end cap to prevent debris from entering

Materials

Steel

Zinc Plating
