

Sioux High safety shoes

S3L FO SR certified high work shoes
EN ISO 20345:2022

Suitable for all seasons and multiple uses, the **Sioux High work shoes** are equipped with a **safety toecap, PU sole and latest generation anti-puncture insole** to ensure maximum protection of work footwear. These work boots guarantee **lightness and breathability** thanks to special synthetic inserts.

Among the Kapriol range of high safety shoes, the Sioux model has always been one of the most popular, available in both high and **low** versions.
