

Shock-absorbing rubber sponge trowel

Polystyrene handle trowel

Sponge rubber plastering trowel with a **lightweight, impact-resistant polystyrene handle** that offers a comfortable and secure grip. The **sponge rubber surface** allows plaster to be applied evenly and without damaging the surface.

The orange plastering trowel is available with both a fine density, medium absorbency sponge and a high density, high absorbency sponge.

TECHNICAL SPECIFICATIONS

- shock-proof handle
- wide-cell, highly absorbent sponge

MATERIAL

- Handle: shockproof polystyrene
