

Plastic plastering trowel

Plastering trowel

Available colors:

GPIUMA_ROSSA

A **plastering trowel** made of high-quality, **impact-resistant polystyrene** with an integrated handle at the base for greater strength and durability.

The **plastic plastering trowel's corrugated sanding surface** allows for a precise and even finish while the **rounded corners** prevent marks and scratches on the plaster.

TECHNICAL SPECIFICATIONS

- integrated handle at base
- corrugated sanding surface
- rounded corners

MATERIAL

- Structure: polystyrene
