

Coffreur carpenter hammer

Martello in acciaio verniciato

Handy and durable carpenter's hammer with a head made of high-alloyed Nickel-Chrome-Molybdenum steel with a **nail extractor shaping for easy and quick extraction of nails**. The **handle of the Coffreur hammer is equipped with a practical anti-slip countersink** and is available with either a Progrid Tri-component non-slip plastic handle or a clear varnished ash wood handle.

All **Kapriol carpentry hammers** are triple heat-treated to improve performance.

TECHNICAL SPECIFICATIONS

- Epoxy powder coated head
- Available with either Progrid Tri-component handle or clear varnished ash wood handle
- Handle with countersink
