### Sizes:

40 41 42 43 44 45 46

### Available colors:

Giallo

Verde

Arancione

The **safety shoes Dune Smesh** of [the new line of work shoes - Ultra Rebound Technology](#), are made with upper in mesh fabric and reinforcements in TPU that guarantees flexibility, breathability and abrasion resistance. In addition to the S3S-FO-SR certifications, the Dune Smesh work shoes are **HRO certified** for **protection in high temperature environments**, thanks to the special rubber sole that can withstand heat up to a maximum of 300°.

The light work shoes of the new line Dune give an immediate feeling of **elasticity, softness and cushioning**, generated by the **Ultra Rebound effect** that develops during walking. Thanks to the **special NHP** (Nylon High Performances) compound composed of EVA, midsole and footbed, the new safety shoes guarantee a **high cushioning**, reducing the possibility of damage to joints and muscles for prolonged use.

The Dune Smesh work shoes are **available in three different color** variations with yellow, green or orange details.

### TECHNICAL SPECIFICATIONS

- Sole suitable for high temperature environments (300°C -60")
- Padding on the heel and malleolus
- padded tongue
- Flexible and breathable abrasion resistant upper
- rubber reinforcement on the toe
- Weight: 480 gr. (tg. 42)
- EN ISO 20345: 2022

### Materials

- Upper: Strong Mesh and TPU
- Toe: Carbon fibre
- Insole: NHP Tech
- Anti-perforation insole: High Flex PS
- Midsole: NHP Ultra Rebound
- Sole: rubber sole

### SAFETY CLASS

- S3S
